Summary

Dario Mendeš is born on October 4, 1998 in Vinkovci. He currently lives in Vukovar, where he received his primary education at the Blago Zadro Primary School. In the same city, he enrolled in high school, where he finished the general course of the Gymnasium Vukovar. In 2017, he became a student at the Faculty of Electrical Engineering, Computer Science and Information Technology Osijek of the undergraduate professional study Computer Science. In October 2021, Dario graduated from the mentioned college and became a Bachelor of Computer Engineering. In his education, he acquired an excellent knowledge of computer work and knowledge of English. At the college, he got acquainted with the basics of programming in C and JAVA programming languages as well as with technologies of making web applications such as HTML, CSS, JAVASCRIPT, PHP, MYSQL, DJANGO and PYTHON. He attended an internship at Atos where he had experience working in teams on projects. As part of the course "Projects for Socially Beneficial Learning", he tried his hand at the role of a professor, where he taught the basics of programming to younger generations. In his free time, Dario mostly spends time hanging out with friends with football and going out, and spends part of his time expanding the acquired knowledge and learning new skills and technologies that will help him get a job.
